After implementing CoreBridge, the company centralized estimating, production tracking, scheduling, and accounting into one structured workflow eliminating 8–15 wasted hours per week and restoring operational control.

Problem

- Estimates built in Word and re-entered into QuickBooks
- Paper work orders distributed manually
- Production tracked on physical whiteboards
- Weekly scheduling meetings required
- Single-person operational bottlenecks

Solution

- Centralized estimating with automated bill of materials
- Instant Estimate → WIP conversion
- Digital production boards
- Integrated proofing and approvals
- Drag-and-drop scheduling
- Integrated with QuickBooks
- Real-time margin visibility

Results

8–15 **Hours saved per week**

750+ **Hours saved annually**

$35,000+

Recovered Labor Value Annually

Customer Quote

"We were re-entering estimates and chasing paper all day. Everything now runs through one system and we're not wasting hours anymore."

– Dan Martinez, Owner

The Outcome: One System With Full Control

CoreBridge unified operations into one seamless and structured workflow:

Estimate → Production → Install → Invoice

By eliminating duplicate entry, whiteboards, and scheduling bottlenecks, the company regained consistent margins and full production visibility. For a 10-person shop, that kind of control isn't just an upgrade, it's a turning point.
